Peace Talk at Three Points.

Rome, July 9.—(Special.)—The Italia says negotiations have been opened by European cabinets with a view to arranging peace. The best intentions have been manifested at Washington, the papers say, but Madrid opposes the idea.

London, July 9.—(Special.)—Madrid dispatches bring denials to-day from the Ministry that peace negotiations are pending. They declare further that Santiago will withstand attack to the last.

Washington, July 9.—(Special.)—Secretary Day and other officials at the State Department insist that nothing official is known about peace negotiations.

Pando is at Mazanillo.

Siboney, July 9.—(Special.)—Information to the contrary, it can be stated that Gen. Pando is not at Santiago. He is at Manzanillo with his entire forces. The only reinforcements that have arrived since the Americans landed, were two bodies of 1000 men each who went in before the city was surrounded. The health of the soldiers is generally good, but there is considerable malarial fever. The wounded are all doing well.

Weyler to be Prosecuted.

Madrid, July 9.—(Special.)—Indications are that the government is undecided whether to instruct Toral to yield or resist longer. Gen. Weyler will probably be arrested soon and an inquiry made into his recent criticisms of the operations in Cuba and the situation in the Philippines. His arrest has been ordered by Gen. Correa, Minister of War. He will be vigorously prosecuted by the government.

One half Were Killed and Wounded.

Havana, July 9.—(Special.)—It is estimated that the Spanish losses near Santiago July 1 and 2 were 900 killed and wounded, out of 1,800 engaged.

Crofton, July 9.—(Special.)—I. W. Cook, who was in the lock-up here for fighting, is in a much more serious scrape. He sold a check of Dr. E. S. Baker, Madisonville, Ky., to E. E. McCully, of this place. It was for \$3.50 and when sent to Madisonville the check was pronounced a forgery. Cook is now under arrest for forgery and will be taken to Hopkinsville to jail on the afternoon train.

HOTEL LATHAM.

The Recent Sale Confirmed By Circuit Court.

Mr. Latham Now the Sole Owner and Will Re-open the House in the Early Fall.

The sale of the Hotel Latham property was confirmed in Circuit Court Friday and the affairs of the hotel will be straightened out at once. The property sold for \$10,000 to the banks and Mr. John C. Latham bought the right of redemption for \$5,500.

Mr. Latham will pay down the cash and satisfy the banks at a total expense of \$15,500.

He originally put \$50,000 into the property and this will make it cost him about \$66,000. He will at once make many improvements, preparatory to re-opening the hotel early in the fall. This work will be begun without delay.

The changes will be important and will remedy some great defects in the building.

An elevator will be put in, the windows may be lowered, as some of them are four or five feet from the floor, and the wash room may be moved to a larger room.

Mr. Latham will spare no expense to make the hotel a success and it will resume business upon an entirely safe basis and can be made a paying investment.

The bondholders will realize about 40 cents on the dollar on their bonds amounting to \$35,000.

GET NEW HONORS.

Lawton for Maj. Gen. and Col. Wood for Brig. Gen.

Washington, July 8.—(Special.)—Among the nominations which will be sent to the Senate to-day will be that of Brig. Gen. Gen. Lawton to be Major General, and Col. Leonard Wood to be Brigadier General. Gen. Lawton is now in command of a division before Santiago, and Col. Wood commands the First regiment of volunteer cavalry, "Roosevelt's Rough Riders."

Clodburst at Kennedy.

Kennedy, Ky., July 9.—(Special.)—The heaviest rain for years fell here last night and streams are full of the banks. Whole fields of wheat in lowlands are under water and acres and acres of tobacco are also covered. Great damage is sure to result not only to the wheat, but to the growing crops.

Blanks On Trial.

Mayfield, Ky., July 9.—(Special.)—Bob Blanks was carried before court yesterday for trial, accompanied to the door by the company of soldiers. The trial is being conducted behind locked doors with no one in the room excepting those directly connected with the trial.

The soldiers are lined on both sides of the hall leading to the court-room. A large crowd witnessed the march from the jail, but there were no signs of violence.

Colored Woman Shot.

Crofton, Ky., July 9.—(Special.)—Nelia Henderson, a colored woman, was accidentally shot in the stomach by Scott Snorton, Col. The wound is a very dangerous one, but not necessarily fatal.

STRANGER SLUGGED.

A Tramp With a Distinguished Name in Jail.

Charged With Sandbagging a Stranger From Hopkinsville, Kentucky.

Parties going home from the council meeting last night encountered a very excited young man who said his name was Jesse Harris and that he lived at Hadensville, Ky. He was without a hat and his face was bruised and his hair disheveled.

He said he was walking on the railroad near the trestle, making his way from Evansville home on foot, when he was stopped by two tramps, one of whom knocked him down with what seemed to be a sandbag, and when he recovered consciousness his hat was gone. He had 75 cents concealed in his inside vest pocket, that had not been found.

Officers Greer and Lander were sent to investigate and found two suspicious characters in a box-car. They were taken in charge and Harris was found in the possession of one of them, who gave his name as Robb Burns, of New Orleans. The other was named Mike O'Brien. Both were held till morning and tried before Judge Leavel.

Burns was identified by Harris and held over under a \$500 bond and is now in jail.

O'Brien was released and ordered to leave town, which he lost no time in doing.

Harris was restored to him and he went on his way home to-day.

DISSATISFIED SOLDIERS.

One Whole Company Wants to be Transferred.

Chickamauga Park, Ga., July 9.—(Special.)—Eighty-nine members of Company H, this morning presented a petition to Col. Castleman requesting a transfer to another company. The company to which a transfer was desired was not named and no reason was assigned for the request. The boys are very resentful about the affair. Col. Castleman has as yet taken no action on the subject. The company was organized at the commencement of the war scare and is composed of many of the members of the famous Louisville light infantry. It is one of the very best in the regiment. Its officers are John Cowles, Captain; Hardwick and Morris, Lieutenants.

THE COUNCIL MEETS.

To Hear Back Minutes Read for Several Months Past.

The council held a brief meeting last night, but nothing of important was done.

All of the councilmen were present.

The deeds for the new streets to be improved in the Sixth ward were received and work ordered to be put through at once.

NOON

**To-day the Hour Set
For Bombardment.**

**Report That Battle Was Begun
Afterwards Denied at
the Department.**

SHELLS ARE BELIEVED TO BE FLYING.

Washington, July 9.—(Special.)—Nothing has been received up to 11 o'clock to indicate that the plans for the bombardment at Santiago to-day will not be carried out. The battle is expected at noon unless Gens. Linares and Toral decide to surrender.

Washington, July 9.—(Special.)—Shortly after noon Secretary Alger's private secretary announced that the bombardment of Santiago was begun at noon. Later the war department, when asked for a copy of the dispatch, to make it public, stated that none such had been received, although there is no doubt that the bombardment was begun.

Washington, July 9, 2:50.—(Special.)—Gen. Shafter has cabled that Gen. Linares offered to surrender under certain conditions, which the department refused to make public now.

The President has directed a reply that the surrender must be unconditional. At 1:45 Corbin hurried to the White House with a telegram but refused to talk.

It is supposed it was from Shafter in reference to Santiago.

On Shafter's recommendation Young and Kent have been promoted to Major Generals.

Bombardment Has Commenced.

New York, July 9.—(Special.)—The Mail and Express says: On authority of one of Alger's official aides, it is learned that the bombardment has commenced.

A Spanish Steamer Destroyed.

Key West, July 9.—(Special.)—Officers on the Havana blockade bring a story of the destruction of a Spanish steamer, believed to be the Villaverde from Mexico with munitions and supplies for Blanco. It was chased by the Hawk and beached and afterwards sunk.

DEMOCRATIC TICKET.

FOR CONGRESS.
HENRY D. ALLEN,
OF UNION COUNTY.

Aginaldo proclaimed himself President of the Philippine republic on July 1.

Teddy Roosevelt has been moved up a notch and is now Col. Roosevelt. He has richly merited his promotion, even if he is a dude.

Two Nebraska soldiers of the second Manila expedition have died since leaving San Francisco, one at sea and the other at Honolulu.

Ulysses S. Grant III, now seventeen years old, wants to join Roosevelt's Rough Riders. He has recently been appointed a Cadet to West Point.

Democrats of the Eighth congressional district have the hottest race of their lives on hand. Mass meetings will be held to-day in the various counties to select delegates to the district convention, to be held at Danville, Wednesday.

The Louisville Legion are highly indignant over the expressions of Gov. Bradley and Forrester alleging mismanagement of the First regiment's affairs. Line officers held a meeting to draw up resolutions applauding the action and management of Col. Castleman and denouncing the methods and conduct of Gov. Bradley.

A long list of promotions, covering many who took part in Santia go battles, were made Friday. All Brigadiers are made Major Generals. Col. Wood was made a Brigadier, and Roosevelt takes Wood's place. The following Brigadier Generals of Volunteers were promoted to be Major Generals: Hamilton Hawkins, Henry W. Lawton, Adna R. Chaffee, John C. Bates.

Hopkinsville's "boys in the navy" are being heard from as fast as opportunities are afforded them. Will Southernland in the scrap at Cienfuegos and later in capturing the Galito distinguished himself, and Billy Brough in helping to sink the Alphonso XII, a ship twice as big as the Castine, covered himself all over with glory. Cy Radford has manipulated some of the big guns of the Texas in hot fights all along from the beginning of the war to the destruction of Cervera's fleet. He has shown himself to be a brave and capable officer and has the stuff in him out of which heroes are made. Hopkinsville is proud of her "boys" in the navy.

The cessation of hostilities, the persistent rumors from official circles, the reticence of officers, all indicate that peace negotiations are actually going on. The most significant thing yet is the following dispatch yesterday from Suez: "The ships of the third squadron re-entered the canal this afternoon, and are now returning to the other side. The cause of this sudden change of plans is not given out here." The return of this fleet shows that there has been a complete change of plans. It means that Spain is ready to give up the fight. The war is about over.

Mr. J. Peyton Hobson, who was yesterday nominated by the Democrats of the Third appellate district, was born in Virginia fifty years ago and was graduated in 1870 at Washington University under the presidency of Gen. Robert E. Lee. At that institution he showed himself a veritable "glutton for work"—a characteristic which he has continued to retain and maintain during the quarter of a century of his practice of the law at Elizabethtown. Judge Hobson would make a valuable addition to the learned and laboring force of the Kentucky Court of last resort—Louisville Times.

These kind words spoken by the Times, indicate that Judge Hobson will receive the support of at least one of the Louisville papers that left the party three years ago. As the district is a close and doubtful one, the independent vote may hold the balance of power.

The Democratic Committee of Breckenridge county recommended to the State Board of Election Commissioners the Hon. D. H. Severs, James St. Clair and the Hon. Tice Jolly for County Election Commissioners under the Goebel law.

The revenue collections in the Hon. John W. Yerkes' district for the fiscal year ending June 30, 1898, aggregated \$2,218,046.12, as against \$1,682,193.97 for the year preceding. This is an increase of \$535,852.15, a very substantial gain, indeed, and indicative of much better times during the twelve past months.

Jo Buck Winfrey, who was born and reared in Columbia, was shot and instantly killed in Franklin, Robinson county, Tex., last Saturday afternoon. The deceased was a son of the late Maj. T. C. Winfrey and had resided in Texas about twelve years. A short while ago he was Deputy Sheriff of his county, but at the time of his death it is believed that he was employed in a grocery store.

Carrier Pigeon Shot.

About 4 o'clock last Wednesday Audley Elder, a small boy of Middleton, Ky., noticed a carrier-pigeon flying rapidly northward. A well aimed shot from a gun brought the bird to the earth. The boy was surprised to find around one leg a silver band with the following figures, "K57924. The band held in place a note as follows: "July 5, '98.—Ky. boys will get to smell powder. Brocon W. Henry."—Times.

Solomon Smith and R. J. Cook engaged in a fight on the streets this evening. Cook was fined \$5.00 and costs, he being the aggressor, and Smith was released. Cook failed to satisfy the court with the amount and was sent to the lock-up.

Miss Fannie McCully, of Earlington, is visiting her brother here.

Luck Was With Him.

A brakeman named Billy Buckberry fell off an L. & N freight train at St. Bethlehem, Tenn., last night while in motion, but was so fortunate as to escape with some severe bruises. He will be unable to work for several days, but was not seriously hurt.

That Church Scandal.

The high stand taken by the bishops or the Southern Methodist church in regard to their claim against the government will command the admiration and respect of the people of the United States. The claim is unquestionably a just one, and the action of Congress, backed by approval of the President, place the representatives of the government in a position where they can not dispute it.

This bishops are right in refusing to consider it as a gratuity given to charity. They are right in refusing to hold it if the Senate declares that it was obtained by false representation on the part of the book agents of the church or the lobbyist employed by them. The worst feature of it is the employment of Stahman. It is not believed that he will refund a dollar. The money will have to be raised it is paid, by getting contributions from the poor and honest members of the church to repay the \$100,800 paid to Stahman. The members of the church and the general public are anxious to know where Dr. Barbee will stand when it is over.

He admits that he deceived Senators Bate and Pasco and concealed the truth from them when questioned about the matter of Stahman's fee. The church can not relieve itself of responsibility for the ugly scandal which Stahman and Barbee have brought on the church with this lying with them. With Stahman it will not matter, but it is a serious matter for Dr. Barbee.—Dispatch.

The Book Concern Job.

Washington, July 9.—The Senate Committee on Claims yesterday made its report upon the investigation made by the committee into the payment of the claim of the Methodist Book Concern, and the payment to Major E. B. Stahman of \$100,800 as an agent in getting the claim through.

The committee finds that the Senate was deceived by the representations of Mr. Stahman and Messrs. Barbee & Smith, the book agents, but absolves the Methodist Church South as such from blame in the matter.

It is also found that no Senator or member of Congress received any money in connection with the claim. The testimony taken was also made public. The principal witnesses were Mr. Stahman and Mr. Barbee.

Cervera.

Admiral Cervera's full name and title is Pascual de Cervera y Topete Conde de Jerez, Marquis de Santa Anna. He is a nephew of Admiral Torpede, one of the old and most famous of Spanish naval officers. He is 56 years old. Cervera was at one time in the militia, attached to the Spanish Legation at Washington. During the ten years of Cuban war he was made Secretary of the Navy in the provinces, and afterwards made an Admiral and placed in command of the battleship Pelayo, which was constructed according to his suggestion. It is said, however, that his promotions were due more to family influence than to any demonstration upon his part of superior ability, although he has proven himself capable in some respects. It is also said that he is rather haughty and overbearing, and that he is not well liked by the men under his command.

SUICIDE IN SPRINGFIELD.

Prominent Politician Blows Out His Brains.

Springfield, July 9.—County Clerk J. W. Dean committed suicide yesterday by blowing out his brains.

Twenty minutes before the deed Mr. Dean was engaged in pleasant conversation, and appeared in his usual good spirits. Good-natured badinage was passed and Mr. Dean spoke confidently of his canvass and his chances for re-election.

After going to his office he sent his deputy, Henry Taylor, and his son, Lawrence, across the street on business connected with the office. The two returned in a few moments and, smelling powder, they set out to investigate it. Going into the vault room they found the suicide stretched in front of the gate, with a 36-calibre revolver lying between his legs. He had placed the barrel in his mouth and pulled the trigger, death being instantaneous. The ball passed out just behind the right ear.

THE STATE COLLEGE

A Chance for Eight Young Men and Women.

Competitive Examination Next Week by the County Superintendent.

Christian county is entitled to eight students in the State University at Lexington this year, and the examination of applicants for these vacancies will be competitive, and will be held in this city by the Superintendent, Miss McDaniel and the county board of examiners, on Friday, July 15. The examination will be much less rigid and exacting than that for teachers, proficiency being required only in history, geography, grammar and arithmetic.

The State college is now one of the best institutions of learning in the South, and is excelled by few in the North and East. Prominent educators from the North and East have said that there are colleges in their sections which have far greater reputations away from home than the State college of Kentucky, but which are not near so well equipped as the State college, and the courses of instruction of which are not near so thorough.

She school is maintained by the taxpayers, and a certain number from every county are entitled to free tuition in the school every year. Each legislative district is entitled to select and send to the college each year one properly prepared student, free from all charges for tuition, matriculation fees, room rent, fuel and lights, and to have all the advantages and privileges of the college and dormitories free, except board. The student is entitled, free of any cost whatever, to the benefits enumerated in the foregoing for the term of years necessary to complete the course of study in which the student matriculates for graduation, or during good behavior. All beneficiaries of the State who continue as students of the consecutive collegiate year, or ten months, unless unavoidably prevented, are also entitled to their necessary traveling expenses in going to and returning from the college. The selection of students is made by the county superintendent after competitive examination on subjects prepared by the faculty of the college and transmitted by the county superintendent. The competitive examinations are open to all persons between the ages of fourteen and twenty-four years.

In addition to the students allowed from each legislative district, teachers or persons preparing to teach may enter the college at the rate of not more than four from each county, upon the same conditions, receiving the same benefits and have the same privileges in the college as those granted to the students from the legislative districts. The appointments are vested in the county superintendent, and they must be certified to the president of the college at any time between July 1 and December 31.

Colson's Raw Materiel.
Lexington, Ky., July 9.—Excepting five or six of the staff officers and about the same number of company officers there are no officers nor enlisted men in the Fourth Regiment who have the least knowledge of even the rudiments of military tactics and discipline. As the result of this the discipline at Camp Corbin is very lax, and has probably very much to do with the large number of desertions. The more desertions last night, but it is believed that since the camp has been enclosed with a wire fence they will be somewhat checked. The ignorance of the line officers and the men under them of military affairs is not to be wondered at, as all save a few come from the mountain districts, where the educational facilities are limited, and where the life led by the people is free from all restraint.

It is predicted by military people that in view of the incapability of the line officers these mountaineers will be a long while acquiring from such drill masters enough of the science of warfare to fit them for service, if, in fact, they ever do.

Billy Malone Lives at Gracey.

Mr. E. C. Robb, who resides on Second street, says the Clarksville Leaf-Chronicle, has a negro employee who is anxious to build a home. The other day he asked permission to lay off from work for one day and this was granted. When he came back to next day Mr. Robb asked him what he did while not at work, and the negro responded by saying that he spent the day hunting for Mr. Billy Malone, whom some one said would build his house for him, but that he was unable to find any man by that name. He had been looking for a Building & Loan office and had the names mixed.

SHOT AT A THIEF.

A Drummer Catches a Burglar In the Hill House.

He Escapes in the Darkness After Robbing One of the Lodgers.

The Hill House was entered by burglars last night, who were discovered as they left the house and chased several squares out East Seventh street.

There were two of them and they were colored men, who probably live here and are more sneak thieves than professional burglars.

Early in the evening one of the lodgers (Mr. Cooper) in the house, told Mr. Hill that he would be out until about 11 o'clock and Mr. Hill told him he would leave the front door unlocked until that hour. He noticed two negro men loitering about in front of the house and they must have heard the conversation.

When Mr. Cooper approached the house on returning he saw the door was open and from across the street he saw a negro man tipping down the steps in the hall with his shoes in his hand.

Cooper rushed across the street and tried to catch the negro, but he darted out and took to his heels, Cooper firing a pistol shot at him as he ran.

He was chased up Ninth street and out Seventh for several squares, when he dodged into a side street and disappeared.

A second negro was also seen, but he was outside the house and ran in a different direction.

Investigation showed that a room occupied by a drummer named Witherspoon, had been entered and Witherspoon's clothes taken. His pockets contained \$8 or \$10 in money.

In the morning \$1.75 in change was picked up in the yard and Witherspoon's trousers were found in the yard of the Ninth Street Presbyterian church across the street.

Officer Smith was attracted by the shooting and was soon on the scene, but too late to assist in the chase.

Mrs. Hill was aroused by the noise and saw one of the men escaping. She says she would recognize him if she could see him.

No clew has been discovered up to this time to lead to the apprehension of the thieves.

A NARROW ESCAPE.

An Evansville Drummer Is Introduced to a Fluid Called Water.

W. U. Townes, a drummer for an Evansville drug company, went to Herndon Friday and on returning drove into a deep body of water across the road. His team and buggy were carried into water several feet deep and the horses were soon swimming. Townes fearing that the buggy would turn over, jumped out and swam to a fence and succeeded in getting out with no injury more serious than a ducking. His team swam across the pond and stopped and as soon as Townes could make his way on the fence he resumed his journey. He reached his room at the Hill House in a very moist and disgusted condition.

IMPROVEMENTS

To Be Made at Once on Bethel Female College.

Water Works to Be Put in Rooms to be Re-Papered and Windows Made Modern.

The trustees of Bethel Female College met yesterday afternoon and decided to make important improvements on the interior of the college. All of the old style twelve light windows will be taken out and re-placed with new four-light windows. The entire house will be otherwise improved in all of the rooms.

Another large room will be fitted up into bath rooms, doubling the accommodations in that line. Not only with additional bath-tubs be provided, but the water works to be put in will include toilet rooms on every floor and other conveniences that have not been in the house before.

The money to pay for these improvements, estimated to cost \$1,000, has already been raised by private subscriptions. Committees are still canvassing and if enough can be raised the extensive addition that has been under contemplation for some time will also be built this summer.

The school bids fair to enter upon a career of increased prosperity with the new session. Its prospects have never been so bright before.

A TRAGIC DEATH.

Enfield Stevens Killed at Earlington Thursday Afternoon.

Enfield Stevens was killed at Earlington Thursday afternoon at 4 o'clock at the sawmill just south of the L. & N. depot, says the Madisonville Mail.

It seems that Stevens was "gumming" a saw on an emery wheel, which was running at a very high rate of speed. Suddenly the wheel burst, a large piece striking Stevens with terrific force just under the left eye and crushing through flesh and bone.

Stevens was killed almost instantly, and was dead when the employees of the mills reached his side.

Too Much Rain.

The warm and frequent rains following so close upon the high winds that uncapped and scattered the shocks of wheat in many fields, are most sure to cause much of it to sprout and become greatly damaged. Wheat threshing is at a stand still and has been for a week or more.
